

Greek Movement Strategic Plan

Step #1

Future Reality :: The Vision

Discussion Questions: What would it look like if we won big? What do we want our movement to look like 3-5 years from now? As you dream about “what our movement could be” what do you see?

Action Step: On the strategic plan worksheet, fill in the **Future Reality** circle.

Step #2

Current Reality :: A Snapshot of the Present

Discussion Questions: What is true about our movement now? What are the people like? What kind of atmosphere is there? What are our major problems? Are students sharing their faith? Are we seeing decisions for Christ? Transformed lives? Are students going on summer projects?

Action Step: On the strategic plan worksheet, fill in the **Current Reality** circle.

Step #3

Available Resources :: Tools To Get Us There

Discussion Questions: Who do we need to accomplish our vision? What type of people do they need to be? Is there anyone we need to (recruit, pray about, think about, talk to) outside of this room? What are some books, web sites, bible studies, or other resources that will help us accomplish our vision?

Action Step: On the strategic plan worksheet, fill in the **Resources** square.

Step #4

Critical Path Steps :: What Will It Take?

Discussion Questions: What steps are needed to get us to our vision? What resources will we use in each step? What kind of results will give us a good indication that we are being successful (a.k.a. **Success Criteria**)? *FYI: Increased numbers do not always mean success. For example, an increase in meeting attendance may mean you are putting on a good show, but doesn't necessarily mean that lives are being changed. What other ways can you measure success?*

Action Step: On the strategic plan worksheet, fill in the **Critical Path Steps** within the arrow. Next, fill in the **Success Criteria** rectangle.
